Aci Sec 1! Office of the Gellow Stone & Mo Ex Expt Washington Nov 27 9810 It is disind to obtain your aid to examine and describe the Specimens of secent plants, collected by the Lettowstone of Missouri Expedition. Tvill you please inform me if you would be willing to undertake the Cabor, and if so, upon what Firms, and the probable time that would be required to give the necessary report for publication. The collection has been made chiefly under the direction of Fr.V. Hayden the naturalist of the Expedition It is quite large consisting of some Thousand or fifteen hundred Species and it is hoped contains many things Mat are new.

It is to be expressly understood that no pubdication is to be made excepting through the authorizad channel of the Tour Dept. and that all Specimens are to be returned unless it be duplicated by agree ment. This is required by regulation of the Department
